**Heterogeneous road networks have no apparent effect on the genetic structure of small mammal populations**

If they do not do it themselves, others who toil and think more than they must inevitably take their place.

**Chronic exposure to gamma radiation of wild populations of meadow voles (*Microtus pennsylvanicus*)**

How did hominin behavior affect the niches of medium-sized carnivores? Hanner RH, J Lima and R Floyd. Assistant director and Field director 2013 Archaeological Excavations in Sibudu rock shelter, South Africa.

**Insights into regeneration tool box: An animal model approach**

Proceedings of the National Academy of Sciences of the United States of America 108: 10602-10607.

**Darwin killed God: If the dinosaur**

Some may not be interested at all, and others take more time or less to assimilate what they want.

**Review of resistance to chronic ionizing radiation exposure under environmental conditions in multicellular organisms**

In- terest will no longer be there if the seed be sown too late, but at six years of age all items of culture are received enthusiastically, and later these seeds will ex- pand and grow. Yang Z, J-F Landry, L Handfield, Y Zhang, M Alma Solis, D Handfield, BG Scholtens, M Mutanen, M Nuss and PDN Hebert. It testifies to his genius that the concept of natural theology, accepted by most educated Westerners before 1859, was vanquished within only a few years by a single five-hundred-page book.
