Case

If you do outside sources beforehand it could screw up your thinking process.

EMT

See details for description of any imperfections. I live near Boston if that matters. Students work through the case to identify Patient Zero, the person who was the first to spread the disease, and how that individual became infected.

Clinicopathological comparison and therapeutic approach to Castleman disease

From the histological standpoint, UCD and MCD can be classified as hyaline-vascular HV , plasma cell PC , or mixed cellularity MC type, with a spectrum of histopathological manifestations.

Rapid Emt Revised Reprint 1e PDF Book

These findings demonstrate that instructors use CBL in a variety of ways in their classrooms.

Clinicopathological comparison and therapeutic approach to Castleman disease

See the following resources on case writing: ; ; ; .

Rapid Emt Revised Reprint 1e PDF Book

Anyway, thanks for your opinions and suggestions.

EMT

Students perceived CBL to be a more efficient process and more clinically applicable. While tempted to buy it, I wasn't sure it would be up to date

with a publish date of 2005. Jonassen DH and Hernandez-Serrano J.
