## Datuk Yong is new KL Police Deputy Chief

His three day trip to South Korea in February on the margins of the Winter Olympics was deeply controversial for the families of the dead sailors and for conservative political forces, who took to the streets in protest. Our work will fundamentally advance our understanding of innate behavior and integrative physiology, and provide many novel treatment targets for associated metabolic, neurological and psychiatric disorders, vastly improving the lives of billions of people world-wide.

This work also raised many interesting questions about the anatomical organization of the circuits, which led me to develop novel tools for extracting structural and molecular information from intact brains as a postdoctoral fellow. Ongoing research projects in my lab are answering these basic questions in neuroscience and physiology one by one, some of which are or currently in the advanced stages of publication in top journals in neuroscience.
