15. Behavior of Animals

A young child might learn to put away his toys by being rewarded with a bedtime story.

animal behaviour

Some animals follow landmarks, such as rivers or coastlines. Regressions and analyses of variance. When the bee returns to its hive, it will do a dance, called the waggle dance.

Animal Behavior

Humans and house pets such as dogs have co-evolved ever since humans first domesticated animals some 14,000 years ago.

Animal Behaviour

By studying animal behavior, humans can also learn more about their own behavior—a field known as comparative psychology. Try to keep subheadings short enough to fit within a single column. The reference style used by the journal will be applied to the accepted article by Elsevier at the proof stage.
