## The Extraverted Personality and Stuttering

I learned that I was different, not as good in every way that mattered.

## Stuttering

We want to learn to talk fluently. I stuttered severely but I had little fear of listeners discovering that I stuttered. Testing For Stuttering It's not easy to tell if your child stutters.

## The Extraverted Personality and Stuttering

Social phobia is ten times more prevalent among adults than among children. They may also avoid using certain words or use different words to keep from stuttering.

### [PDF] Attitude and personality characteristics of older stutterers

For example, frustration or tension can cause more disfluencies. Sometimes people who stutter use these behaviors to stop or keep from stuttering.

### [PDF] Attitude and personality characteristics of older stutterers

A study of 32 adult stutterers found that 60% had social phobia.

## Stuttering

Some received 14 hours of fluency shaping; the others received 15 hours of cognitive-behavior therapy focused on reducing speech-related fears and anxieties followed by 14 hours of fluency shaping. You might change words to avoid stuttering. Wijnen Educational Institute: Erasmus University Medical Centre, Rotterdam, The Netherlands.
