Energy for Today: Ethanol and Other New Fuels. This book offers a look into ways that you can live a chemical free life, or at least a life with less chemicals, as you choose products and routines that circumvent the toxins found in our supply of food, water, personal care products, environment, pharmaceuticals, and even nature. Pick one issue and commit yourself — an issue that fits in your life, an issue that feels comfortable to you — and then make that a part of your life.
