## Faunal and floral migrations and evolution in SE Asia

Thus, the chances of finding early sites at some distance from the coast would seem higher on the northern route.

## Jurassic

Journal of Experimental Marine Biology and Ecology, 258 1 , 87-99. In: Composition and structure of the marine bottom biota, VNIRO Publ. Palaios, 16 5 , 444-460.

## Molecular Phylogeny, Biogeography, and Habitat Preference Evolution of Marsupials

These 2 sites were the terminal locations of a transect crossing the species boundary between T. Les Eodévonariidés Chonetoidea, Brachiopoda du Dévonien des bassins de Taoudeni et du sud du Hoggar, Sahara. The backcross found 10 km away from the present boundary, however, could hint at past hybridization and subsequent movement of the hybrid zone.

## References 2001 on Brachiopoda

Since the turn of the century, great progress has been made in resolving the relationships among marsupial taxa. Eurytholia - small problematic phosphatic sclerites from the Ordovician of Iapetus.

## The 'human revolution' in lowland tropical Southeast Asia: the antiquity and behavior of anatomically modern humans at Niah Cave (Sarawak, Borneo)

Zones of contact between T.
