**Agricultural land preservation and urban development in the new fringe : a case study of small lot farming in Kelowna, British Columbia**

Quayle's ongoing work on community gardens is typical, in the sense that community gardens are not seen as an end in themselves. Laquan, the Director of the Centre, also incorporates the topic of urban agriculture in his graduate courses.

**Agricultural land preservation and urban development in the new fringe : a case study of small lot farming in Kelowna, British Columbia**

It embraces aspects of forestry, urban ecology, atmospheric science, landscape architecture, urban planning, political science, sociology, psychology, biology and even engineering.

Filesize: 22.75 MB

ecology, atmospheric science, landscape architecture, urban planning, political science, sociology, psychology, biology and even engineering.

**Urban Agriculture: A Survey of Academic Expertise and Programs in Canada**

Roof elevation, strong winds, high temperature, and suitable plant species also require serious consideration. Walker , Scarborough College, University of Toronto Dr. A number of pilot projects within the community are being created, including projects at city schools.

### **The rural**

Many different control measures can be used to eliminate urban pests.

### **The rural**

The project also facilitates the development of urban agriculture by establishing demonstration gardens, writing and distributing numerous publications, acting as a consultant to various related projects, giving lectures, workshops, and building up a reference collection of materials. The Agricola and UMI databases were searched, as was the collection at McGill University's Ecological Agricultural Project.

### **Urban Agriculture: A Survey of Academic Expertise and Programs in Canada**

For example, upland disposal of dredged material for bird habitat to avoid adverse impacts of increased turbidity on seagrass beds worked well for Laguna Madre, but Louisiana used similar material for containment dikes and marsh restoration. John Evans from Memorial University's Biology Department started to teach the subject in 1974. In the international context, Canadian academic interest is also growing, as is reflected by the increasing amount of research from both students and faculty.

### **Urban Agriculture: A Survey of Academic Expertise and Programs in Canada**

**Summary:** To accomplish the project mission, the EAP collects, organizes, and disseminates essential information, conducts research, and provides expert analysis and advice to farmers, consumers, government, academia, agribusinesses and the media. In practical terms, it attempts to educate people so they are better able to produce their own food and livelihoods in an environmentally benign manner.
