## Pesticide Control Program

The Interior Department's Bureau of Land Management BLM has filed a final and plans to start granting leases by the end of the year. The proposed action will be developed through extensive public involvement to meet the purpose and needs for the project, with activities occurring over the course of 10 to 15 years.

## FY 2020 EQIP Conservation Activity Plan (CAP)

These special areas include items such as wild and scenic river corridors, research natural areas, etc.

## FY 2020 EQIP Conservation Activity Plan (CAP)

However, following pressure from state fish and wildlife agencies, NGOs and tribal groups, Congress restored the LCC funding. The Trump decision also ended the policy of prohibiting large tracts of land to be used for the growing of biotech crops such as corn and soybeans in the refuges.

## Environmental Impact Statement (EIS) Database

Also included are other High Priority Restoration projects that are funded outside of CFLR. When Trump took office he focused on a range of topics including air, , land and cleanup, , toxic substances, , and water.

The public collaborators, partners, tribes, Native corporations, and other interested stakeholders are invited to attend this fall workshop to be able to present activities that they would like to be implemented and review activities presented by the Forest Service. Protected lands can continue to

be used for forestry and other compatible activities. A unit may have important needs for change beyond those that form the basis of any individual amendment.

#### **USDA Forest Service FSGeodata Clearinghouse**

More information about the Committee's membership and work is available online at. Choose the state where the property that you are interested in enrolling in EQIP is located. The framework systematically divides the country into progressively smaller areas of land and water that have similar physical and biological characteristics and ecological processes.

#### **Environmental policy of the Donald Trump administration**

Not every National Forest has data included in this feature class. It is important to note that this layer may not contain all accomplished activities; the spatial portion of the activity description is not currently enforced by FACTS and at this time some are optionally reported by Forest Service units.

#### **DEC Home**

Many landowners have stepped up to help solve fencing problems for wildlife.
