The Death of Christian Britain: Understanding Secularisation 1800

Brown's thesis is directed partly against Christian optimists, especially of the liberal kind, who consider recent social and religious change as being for the good of Christianity.

So too do private individuals. Yet the easy judgement that religious behaviour was a bourgeois rather than a proletarian matter, or a rural rather than a city one, breaks down upon a closer analysis of ecclesiastical statistics. Men were inclined to drunkenness, smoking, gambling, lust and sport on Sundays, so that religion itself was a profoundly gendered thing, recommending the female values and virtues of chastity, modesty, temperance, sobriety, thrift, Sabbath observance and good house keeping to a partly or mostly anarchic male population.

The Death of Christian Britain: Understanding secularisation 1800

There were two paragraphs on this in my penultimate draft which got unaccountably cut from the final version when I was reworking order and cutting words. . Brown conceives the nineteenth and the first half of the twentieth century, 1800-1960, as the era of an ascendant puritan Protestant Evangelicalism, stronger among women than among men.
