Accompanied by a detailed Introduction, the volume also touches upon narrative art and analyzes the influence of European Renaissance art on Mughal painting. From this Gestalt philosophy has sprung our model of performance enhancement — holistic wellness for the organizational vyaktitva. With over 150 Mughal paintings and illustrations in colour, this volume will be an important sourcebook for scholars and researchers of Medieval Indian, especially Mughal history, and art historians, as well as connoisseurs of art and the general reader.

Śāsana

Everything is interconnected, interdependent and dynamic so solutions that create impact must be systemic. The six Tatvas depicting the Vision, Culture, Shared Leadership, Structure, Processes and the People together make up the organizational character and all have to be addressed systemically and aligned for growth and performance.

It provides a fresh treatment to the source material and highlights vivid accounts of the historical events of the time. As consultants with business, people and design experience we bridge the gap between business goals and impact, and the people development necessary for it.
