## Jackson Hole Wyoming

Click the DVD to order! Using an ultra wide angle lens to photograph the Tetons from the sagebrush flats will render the mountains small and unimpressive Grand Teton Mammal Checklist: a Abundant. Check fence posts for western meadowlarks, western and eastern kingbirds and mountain bluebirds. Buy on Amazon: Other Organizations Jackson Hole Bird Club A group of amateur birders meets on the second Sunday of every month.

## Bird Checklist for Grand Teton National Park

We will be hosting these events throughout 2021 at many of our different branches. Oxbow Bend A slow-moving, cut-off meander of the Snake River, Oxbow Bend supports lush underwater plant growth and abundant fish, food for aquatic birds. Christian Pond Several species of waterfowl nest here.

## Jackson Hole Mountain Guides

An occasional green-tailed towhee flutters through the sagebrush near the overlook and evening grosbeaks visit from the forest. Kingfishers, common mergansers, ospreys and bald eagles catch fish in the river.

## Adventure Journal: Birding in Grand Teton National Park

Unattended nestlings readily succumb to predation or exposure to heat, cold and wet weather. Despite the hot dry conditions existing where sagebrush grows, some species flourish.

## Grand Teton National Park Wildlife

Habitat The park contains a broad diversity of habitat: It stretches, after all, from the ice-carved fangs of the high Tetons, over 13,000 feet above sea level, to the marshes and sagebrush flats of the Snake River Valley.
