## Exercise and Cancer Best Practices Symposium

Course syllabus is aligned to CORU recommendations in Ireland and American College of Sports Medicine ACSM Clinical Exercise Physiologist Qualification. This course will equip students with knowledge and experience in performing physiologic exercise tests to assess cardiovascular health, respiratory health, neurological and musculoskeletal capabilities. Technogym and Exercise is Medicine® Virtual Symposium Date: July 21, 2021 Time: 2:00-3:00 p.

## Symposium on exercise : physiology and clinical applications

Kindly note notification it might take up to 24 - 48 hours to handle your solicitation.

## Clinical Exercise Physiology Internship

Opportunities to job shadow are also available for up to three full days in the Cardiopulmonary Exercise Lab and Cardiac Rehabilitation. Students will gain hands-on experience in conducting exercise tests and physiological assessment of fitness in both healthy and clinical populations.

## Exercise and Cancer Best Practices Symposium

Programming will also address the effect of telehealth on the application of cardiac rehabilitation and physical activity prescription in patients with congenital heart disease and pulmonary dysfunction.

## Exercise Physiology and Rehabilitation (MSc)

UCEM offers a multi-tiered education and training program structured for exercise medicine researchers ranging from undergraduates to senior scientists.
