Broderick, Scott

Chicago: University of Chicago Press. Tom was also Director of the Materials Science Center at the UW from 1992 to 1999.

Universal correction procedure for electron

Parish, Khalid Hattar, Peter Hosemann Materials in fission, fusion, accelerator, or space environments are subjected to irradiation and can undergo significant compositional and structural evolution as a result.

Using DTSA

AIP Conference Proceedings, 1336, 377-382. Vin is also working with external laboratories in order to evaluate advanced microstructural characterization techniques such as Atom Probe Tomography and Helium Ion Microscopy and show the benefits these techniques have for industrial materials. He has been an active member of his local affiliated society, the Appalachian Region Microscopy Society AReMS , since 1998 and served as President 2012-2014 and webmaster 2008-2014.

Frontiers of electron microscopy in materials science — Monash University

Autophagy in prep LS Yasui, M Johnson, H Savage, C Burns, A Baker, E Baker. This symposium will cover advances in simulation methods and new discoveries enabled by combining simulations and experiments.

Scott Microanalysis P

These are: 1 to develop a sustainable solution for retaining and effectively utilizing institutional knowledge and 2 enhance membership retention and participation in society functions.

Microscopy and Microanalysis Research Group

Applied Radiation and Isotopes, 70, 6-12. He has co-authored over 70 peer-reviewed publications as well as a book chapter on scanning

electron microscopy.
