Pro tip: Join online or in-person communities of your fellow neighbors, alumni or participants in your current hobbies or outside interests. You can do that online, for free, or order a real-life copy.

7 simple steps to the web design process

Most likely, neither will you.

Get started with Project for the web

Websites are a bit like children, only they never grow up and leave home. Look for a few basic resources, like online tutorials or an up-to-date book on web design. Often, these are known—we often end up deploying an experimental module to achieve some very specific goal, and an upgrade to a related module breaks it.
