For instance, to be as exact as possible, I would have had to perform a fresh OS install on each machine, and have nothing extra running in the background while performing tests. The Pentium I11 Xeon is available in a number of L2 cache versions such as 5 12-Kbytes, l-Mbyte, or 2-Mbytes 500 MHz ; 5 12 Kbytes 550 MHz to satisfy a variety of Internet application requirements. In the same time period, Apple had gone from the 8 MHz to the 25 MHz.
