Free Online Course: Introduction to Computer Science and Programming Using Python from edX

Each lesson was modest in design, well defined in specific objective, and understandable information.

CS101: Introduction to Computer Science I

The goal is to provide students with a brief introduction to many topics so they will have an idea of what is possible when they need to think about how to use computation to accomplish some goal later in their career. This course is eligible for college credit through Saylor Academy's.

Free Online Course: Introduction to Computer Science and Programming Using Python from edX

Developing programming proficiency is a goal of the course, but we also want students to appreciate the depth and breadth of the field.

CS 125: Introduction to Computer Science

Finger exercises between lectures really drive home the points that the professors were trying to make.
