EU regulations

Article 2 Signature An international organisation may sign this Convention if a majority of its Member States are signatories of this Convention. Instead of applying these procedures, the manufacturer may also follow the procedure referred to in paragraph 3 a.

EU regulations

Ireland submits that there was no transfer to the Community of competence in relation to the matters covered by the provisions of the Convention on which that Member State bases its request before the Arbitral Tribunal. Member States may require that the manufacturer shall submit to the competent authority a list of such devices which have been put into service in their territory. Member States shall adopt and publish the laws, regulations and administrative provisions necessary to comply with this Directive not later than 1 July 1994.

Council Directive 80/836/Euratom of 15 July 1980 amending the Directives laying down the basic safety standards for the health protection of the general public and workers against the dangers of ionizing radiation

The declared pregnant woman in nuclear medicine. Radiations emission from patients treated with selective hepatic radioembolization using Yttrium-90 microspheres: are contact restrictions necessary? In this case, the particulars of these directives, as published in the Official Journal of the European Communities, must be given in the documents, notices or instructions required by the directives and accompanying such devices. Laws, regulations, measures, rules, standards and recommended practices and procedures referred to in paragraphs 1, 2 and 4 shall include those designed to minimise, to the fullest extent possible, the release of toxic, harmful or noxious substances, especially those which are persistent, into

the marine environment.

Pravilnik o načinu vodenja evidence o virih ionizirajočih sevanj in obsevanosti prebivalstva in tistih, ki so pri delu izpostavljeni ionizirajočemu sevanju

At the time of signature an international organisation shall make a declaration specifying the matters governed by this Convention in respect of which competence has been transferred to that organisation by its Member States which are signatories, and the nature and extent of that competence. The dates for the EU versions are taken from the document dates on EUR-Lex and may not always coincide with when the changes came into force for the document. Women in interventional radiology: exploring the gender disparity in Canada.
